

Don't delay ER care

Getting the ER care you need is still important.

Whether you have severe coronavirus (COVID-19) symptoms, signs of a heart attack or stroke, or other life-threatening symptoms from a chronic condition or other medical need, timely ER care is still critically important to your health. An emergency is still an emergency. Don't put off emergency care when you need it.

Trouble breathing

Difficulty speaking

Chest pain

Confusion

Extreme fatigue

Blue face & lips or pale coloring

Emotional and mental health

Sudden numbness or weakness of one or more arms or legs

Drooping of one side of face

Ascension ERs offer:

- 24/7 emergency care
- Coronavirus (COVID-19) precautions for safety
- Compassionate doctors who listen to understand
- Lab and imaging services on-site
- Access to the Ascension network for follow-up care

If you are experiencing a life-threatening emergency, go directly to the ER or dial 911.
